

Trusted for years.
Accountable every day.SM

We are pleased that the Jerue Organization now has a full service insurance product that was developed expressly for our carriers.

We would like to introduce to you:
Jerue AmeriTrux Insurance

We believe that this new program will lead to stronger relationships with our carriers due to the very competitive prices and strong service that we will be able to provide.

Jerue AmeriTrux Insurance offers 24/7 service for:
Certificates of Insurance
Reporting claims

In addition to the Very Low Rates we can offer on all lines of insurance.

Please contact Melt Goodwin for more information
Ph# 863-581-9977

As a motor carrier, the requirement to be approved and entered into our carrier data base is high. The approval process requires that the motor carrier provide us with several pages of documentation including but not limited to the carrier's profile, MC Authority, signed BCA and proof of insurance. All motor carriers must have the specified amount of cargo and liability coverage set by Jerue as required by our customers. In addition, the motor carrier's insurance provider must carry a minimum "A" rating as set by AM Best, be reputable, reliable and in good standing with the transportation industry.

Since adequate insurance is necessary for what you the motor carrier and Jerue do for a living, we would like to introduce you to a 'new' division that we've asked our partners, Gateway Insurance Agency, to develop. It's an insurance intermediary division of Gateway tailored specifically for you the Jerue carrier - were calling it Jerue AMERITRUX.

Jerue AMERITRUX stipulated that they would, both personally and professionally, guarantee that they would meet or exceed the quality and service that the motor carriers, John J. Jerue Truck Broker and our customers expect and require.

We also wanted to provide the carriers with some value added, money saving reasons to seriously consider Jerue AmeriTrux so we asked Gateway to waive the finance charges on Jerue AMERITRUX insurance premium payments. We also know that time is money, and when you run into a mechanical problem getting back on the road as quickly as possible is extremely critical so we asked Gateway to secure pre-approval on repairs at licensed repair facilities across the continental U.S., whether your on a Jerue load or not. In addition, if you're insured through Gateway there is a "no questions asked approval" policy in place when you haul a load for Jerue. These are just some of the money saving, value added reasons for you to consider the benefits associated with Jerue AMERITRUX. The coverages that Jerue AMERITRUX currently suggests include:

Auto Liability
Physical Damage

Motor Truck Cargo
General Liability
Occupational Accident

Non Trucking Liability
Workers Compensation

In the next few weeks, a Jerue AMERITRUX representative will be calling to ask you for some basic information and to tell you more about the Jerue AMERITRUX insurance plan and ways to save you money on your insurance. They will also answer any questions that you may have. Please take the time to listen and to ask questions.

We know that you will be pleased with this new division, and that is why with over 50 years in the transportation business we are confident enough to put our name on it.

Sincerely,

Jeff Jerue
